transforming health through IT™

This activity is jointly provided by Postgraduate institute for Medicine and HIMSS

A LETTER FROM

Denise Hines

DHC, PMP, FHIMSS, CEO, eHealth Services Group

Dear Health IT Professional:

We're achieving widespread use of IT in the health sector; now, our challenge to transform health through IT shifts to integrating those technologies to ensure the right information is available to the right people at the right time. We face ongoing issues such as changing payment models, patient engagement, physician satisfaction, and population health. How can we best prepare ourselves and our organizations for both the immediate and long-term future?

That's why I'm excited about the 2016 HIMSS Conference & Exhibition. HIMSS16 gives us the chance to connect with and learn from each other, discover best practices and craft innovative solutions to help answer our most pressing questions and solve our biggest challenges. Together, we'll find new and improved ways to transform health and healthcare through IT.

HIMSS16 offers a multidimensional, customizable experience for each and every attendee. As you review the pages of this brochure, I encourage you to click through the links within it to the HIMSS16 website, where you can view detailed information about this exciting and innovative conference.

In a constantly shifting health IT landscape, the value of HIMSS16 has never been more timely or relevant. I hope you will join me and thousands of other health IT professionals from around the world at HIMSS16, February 29 – March 4 in Las Vegas.

Denise Hines,
CEO
eHealth Services Group

HIMSS16...where ideas become solutions, technology transforms healthcare and critical connections are forged.

The power of health IT is the power of transformation. Yet, the enormous potential for health IT to transform lives would not be possible without you...without your dedication and determination.

HIMSS16 exists to help you find answers to your questions, to gain reassurance and revitalization, and to discover the resources you need to continue your journey to transform health and healthcare through IT.

- **Participate in 300+ education sessions to help you navigate a constantly shifting landscape — with top-of-mind issues such as interoperability, precision medicine, value-based payment, cybersecurity, innovation, patient engagement, big data/analytiwcs, value-based payment and more**
- **Engage with influential professionals from a range of disciplines and levels**
- **Gain valuable insights into trends, issues and the latest developments from world class speakers on the keynote stage and throughout the week**
- **Experience cutting-edge healthcare IT products that transform health information exchange at the HIMSS Interoperability Showcase™**
- **Explore market-ready IT solutions and ideas that can help you deliver impactful, positive results — from 1300+ world-class exhibiting companies**
- **Network with thousands of physicians, nurses, health IT executives, IT professionals, payors, clinical engineers, public health professionals, pharmacists, project managers and others**
- **Meet professionals from across the spectrum of healthcare who are facing the same issues you are...and learn about approaches they are taking to solve them**

IT tools you need to deliver impactful, positive results in health and healthcare.

HIMSS16 is *the* health IT conference. HIMSS16 is *your* health IT conference.
